

Digital Ad Automation and Insights for Tomorrow's Top Subaru Retailer

Harness the power of artificial intelligence, real-time data, and automation in one dealer-centric platform to drive more customers to your website. With ZeroSum, retailers have on-demand access to MarketAI® which provides cross-channel ad execution, VIN-level attribution reporting, cutting-edge competitive insights, and industry-wide market data to drive unprecedented growth.

INVENTORY DATA AND INSIGHTS

Gain access to the largest, most comprehensive, active and historic inventory database in North America. View competitor inventory, turn rates, and pricing.

HIGH-EFFICIENCY AD AUTOMATION

We use machine learning to determine what inventory to promote on any given day, and on which channel (social, display, video, search, VLA), taking into consideration days on lot, budget, exposure, supply, and demand. MarketAI creates your ads using vehicle details from your VDPs and pairs that with channel-specific in-market shoppers to for maximum sales potential.

PRECISE AUDIENCE TARGETING

ZeroSum's automated inventory data integration enables precise targeting to shoppers ready to buy a vehicle like the one you have on lot right now.

AI-POWERED, HUMAN SUPPORTED

Our team of experts guide and oversee the entire process, allowing you to reclaim your time and focus on what's important, running your dealership.

24/7 ATTRIBUTION

We provide unrivaled analytics that enable everything from forecasting expected sales, to VIN-level marketing attribution available in a single platform.

Marketing Designed to Efficiently Drive More Traffic to Your Retailer Website

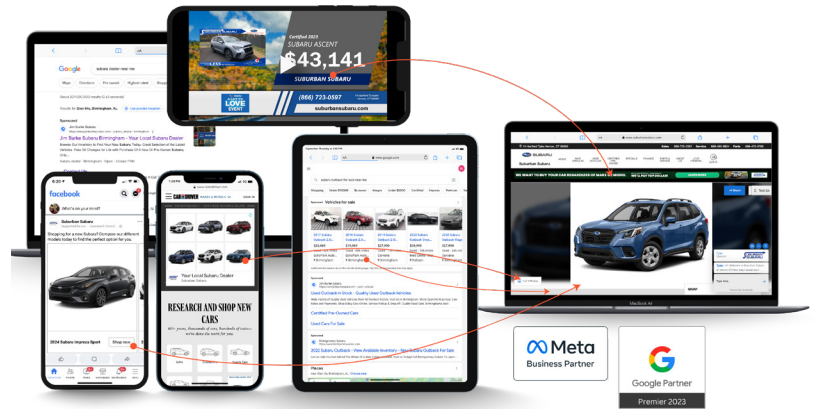

ALL MARKETAI® PACKAGES INCLUDE:
